|------------------------------|---------------------------------------|
| <b>Dimensions</b>            | Ø300*40mm                             |
| <b>Input Voltage</b>         | 200~240V 50Hz                         |
| <b>Input Power</b>           | 18W                                   |
| <b>Power Factor</b>          | ≥0.9                                  |
| <b>Beam Angle</b>            | 120°                                  |
| <b>Efficiency</b>            | ≥88%                                  |
| <b>Housing Color</b>         | White                                 |
| <b>Luminous Flux</b>         | 1710Lm (WW), 1890lm (CW), 1855Lm (DL) |
| <b>Color Rendering Index</b> | >80                                   |
| <b>Lifetime</b>              | 40,000Hrs                             |
| <b>CCT</b>                   | 3000K / 4000K / 5700K                 |
| <b>Protection Level</b>      | IP54 / IK10                           |
| <b>Storage Temperature</b>   | -20°C~+65°C                           |
| <b>Working Temperature</b>   | -20°C~+45°C                           |
| <b>Dimmable</b>              | Triac Dimming                         |
| <b>Dimming Range</b>         | 8-100%                                |
| <b>Certification</b>         | CE, RoHS, SAA                         |
| <b>Warranty</b>              | 3 Years                               |

### Features & Applications

The Othello CCT comes with the ability to choose either warm, cool or daylight colour temperatures by sliding a switch on installation of the product.

The IP54 protection rating also makes it suitable for a wider range of applications, including stairwells, corridors and toilet facilities.

The slim design and superior quality finish also makes the Othello CCT range a superb choice when aesthetics are a consideration.
